

# LAVAGNA

natural stone design

## STONE SUPREME

A wide variety of high-quality rocks are found in abundance in the caves of Minas Gerais in the South Eastern region of Brazil. Among them are marble, granite and ardesia, each carrying a distinctive appearance that becomes the design focus behind the Lavagna collection.

## UNPARALLELED CHARM

The natural stone design of Lavagna encompasses uneven slate surfaces, riven granite texture and silky sheen of marble. These characteristics are intricately infused to present a superior aesthetic that oozes a luxurious essence and everlasting style.

## FERUNI DÉCOR TILES

Feruni Décor Tiles is designed to stimulate any room by adding interest to the wall or floor. Whether it is an entire home or just a feature wall, our vast collection of decors will provide a refreshing view and re-energise your living environment. Every piece is handmade with great attention to detail, shaped by seamless cutting with water jet technology and assembled by hand to create a fascinating tile tapestry in your home. Furthermore, a small quantity of Feruni deco tiles will be a great addition to the floor design while providing extra friction for everyday safety.
